

MDA MUSCLE WALK 2012

Make A Muscle. Make A Difference.

Christian Diego is four years old. In 2010 he was diagnosed with a congenital form of muscular dystrophy called Merosin-Deficient. The steps to get to this diagnosis have been difficult ones. Our faith in God as well as our family and friends have helped us get to where we are today.

We decided then that we will no longer be the victims but advocates for muscular dystrophy. This is why we ask you to not only donate for our son but for also the thousands of other children living with some form of MD (muscular dystrophy).

With your generosity and kindness you can be a stepping stone to one day healing so many little ones in need of your support. **To join our team or make donations please follow the link below.**

We also invite you to raise awareness for MDA by walking with our team this year.

Muscle Walk 2012

Saturday, February 11th @ 8:30A

Cowboys Stadium, Arlington

You CAN make a difference in someone else's life.
